EDUCATION

Bachelor of Computer Applications: Chandigarh University
CGPA: 7.4

2024 - Present

TECHNICAL SKILLS

Languages	C++, Python, Java, JavaScript, HTML/CSS, SQL
Frameworks & Libraries	NumPy, Pandas, Seaborn, Matplotlib, Streamlit, Flask
Developer Tools	Git, GitHub, VS Code, Google Colab, Chrome DevTools
Core Subjects	Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

WHISPERPILOT – VOICE-CONTROLLED BROWSER ASSISTANT – *JavaScript, Chrome Extensions, Web Speech API* Mar 2025

- Developed a voice-controlled Chrome extension achieving over **90% automation** for YouTube and web navigation tasks, effectively reducing manual user effort by **30%**.
- Implemented **6+ intuitive voice commands** (play, pause, volume control) by integrating the **Web Speech API** with direct **DOM manipulation** for seamless, hands-free browser control.

JS TO PYTHON TRANSLATOR – WEB-BASED COMPILER – *JavaScript, Python, Flask* Feb 2025

- Engineered a full-stack compiler to translate JavaScript code into functionally equivalent Python with a **95% syntactic accuracy rate**.
- Implemented a sophisticated compiler pipeline using **Abstract Syntax Tree (AST) parsing**, tokenization, and **Intermediate Representation (IR)** generation to handle complex logic structures.
- Optimized the translation engine to process up to **500 lines of code** with **sub-second latency**, ensuring high-performance real-time execution.

CHATINSIGHT ANALYZER – DATA VISUALIZATION DASHBOARD – *Python, Streamlit, Pandas, Seaborn* Nov 2024

- Built a comprehensive data analysis dashboard using **Streamlit** to parse and visualize WhatsApp chat exports, providing real-time insights into communication patterns.
- Extracted and computed **10+ key metrics** from datasets of **1000+ messages**, including sentiment trends, message frequency, and user activity levels using **Pandas**.

ACHIEVEMENTS

- Solved 250+ DSA problems** across platforms like LeetCode and GFG;
- Hackathon Participant:** Actively competed in high-stakes hackathons including **Matrix 2.0**, **Code Cubicle 3.0**, **Hacknovate 5.0**, and **GFG HackFest**.

CERTIFICATIONS

- Intro to Web Development** – Great Learning 2024
- Intro to Data Science** – Infosys Springboard 2024
